- Current and other useful information (homework, announcements) about this course will be kept on the Teams page.

Required Textbook

Modern Operating Systems by Tanenbaum and Bos, 5th edition, Pearson 2023

The textbook is available at Amazon Bookstore 1860TL

Course Prerequisites

- Solid C programming skills are required

- Solid data structures knowledge is required
- A passing grade from CSE 102 and CSE 331 is required.
- If you do not satisfy the conditions, please talk to the instructor.

The Homeworks

- You will use g++ compilers to compile your homeworks on **the provided virtual machine.**

- Your projects will strictly follow the instructions

Grading

The course grade will be determined **tentatively** as follows

- Midterm exam: 20%
- Final exam: 40%
- Projects (3): 20%

  Quizes (13): 20%

Grading and Homeworks

If you submit less than 70% of the homeworks, if you take less than %70 of the quizzes you will get a grade of VF from this class.

Homeworks are due by the time set by the homework text.

10% of the maximum grade will be deducted for each day late.

We will not accept homeworks submitted more than 5 days late

Your quiz or homework should be worthy of grading (> 20% of max grade)

If there is a situation which prohibits you from turning in your homework on time, talk to me before the due date.

Exams

Midterm exam: Tentatively 8th week of the semester

Final exam: Second week of the exam period

Quizes

Total of about 13 quizes will be given. Every Wednesday at 08:30 you have a quiz.

After the quiz, we will solve the questions in class.

We will prepare the quiz and exam questions using LLMs and after the quiz we will share the LLM chat with you.

Attendance

- Attendance is part of the class work

- Attendance is required and attendance will be taken regularly.
  - No exceptions for this rule!!!!!!!
- You are responsible from all the subjects covered in the class.
- You will get a grade of NA if you miss more than 30% of the classes.

Project Submission and Announcements

- All the class related announcements will be made either in class or by the class Teams pages.
- Students are required to read their emails regularly and check the class pages.
- The homeworks will be announced at the class pages
- The homeworks will be submitted at the class pages

Honor Code

- You should not misrepresent someone else's work as your own.
- Do not use work from someone else.
- All cases of confirmed cheating will be reported for disciplinary action.
